# PUBLIC NOTICE

## Milton Road over Hoods Creek Bridge Replacement Project

### Notice of Availability of Initial Study and

### Notice of Intent to Adopt a Mitigated Negative Declaration

#### WHAT IS BEING PLANNED?

Stanislaus County, in coordination with the California Department of Transportation, proposes to replace the Milton Road over Hoods Creek Bridge, located approximately 1.6 miles south of State Route 4 and approximately 1.8 miles north of the town of Eugene. The existing bridge was built in 1931 and is in need of replacement for improved safety and to meet current road standards. Stanislaus County intends to replace the existing bridge with a new bridge having 11' lanes with 3' shoulders. Construction of the new bridge is anticipated as early as 2024, if funding becomes available. The construction of the new bridge would take approximately eight months. Milton Road over Hoods Creek will remain open during construction through the creation of a temporary road adjacent to the existing bridge.

#### WHY THIS PUBLIC NOTICE?

Stanislaus County has studied the effects this project may have on the environment. The studies within the Initial Study with Proposed Mitigated Negative Declaration show it would not significantly affect the quality of the environment. This notice is to advise you that the preparation of this report has been completed and is available for you to review.
